### Legal Compliance

We make every effort to ensure that the content generated by our AI systems complies with relevant legal standards, including copyright, trademark, and privacy laws. However, as AI-generated content is created through automated processes, there is a risk that some content may resemble or infringe upon existing copyrighted works or other intellectual property. We rely on users and third parties to report any such content so that we can take appropriate action, including content removal and potential updates to our AI systems to prevent future occurrences.

### Ownership and Rights

## 11. Governing Law and Dispute Resolution

### Governing Law

These Terms of Service, and any disputes arising out of or related to them, shall be governed by and construed in accordance with the laws of France, without regard to its conflict of law principles. However, we recognize that our Services are accessed by users from various jurisdictions, and we strive to comply with local legal requirements where applicable.

### Jurisdiction and Forum Selection

You agree that any legal action or proceeding arising out of or related to these Terms of Service or your use of the Services shall be brought exclusively in the courts located in France. By using our Services, you consent to the jurisdiction of such courts. However, if you are a consumer residing outside of France, you may also have the right to bring claims in the courts of your country of residence under applicable consumer protection laws.

### Dispute Resolution

In the event of any dispute, claim, or controversy arising out of or relating to these Terms of Service, the parties shall first attempt to resolve the dispute through good faith negotiations. If the dispute cannot be resolved through negotiations within 30 days, either party may seek resolution through binding arbitration or in a court of competent jurisdiction as specified above.

**Alternative Jurisdiction for International Users:** If you are located outside of France and initiating legal action in France would be difficult or unfair due to local laws or other significant hardships, we may allow you to bring your dispute in the courts of your country of residence. Alternatively, we may agree to use other dispute resolution methods, such as mediation or arbitration, that are available in your country. This adjustment will depend on the specific legal requirements in your location and our mutual agreement.

### Class Action Waiver

We require that all legal disputes related to our Services be resolved individually and not as part of a group or class action. This means you agree not to join with other users in bringing a lawsuit or other legal action against Synthetic Minds. However, if the laws of your country do not allow us to enforce this class action waiver, any class action must be filed in the courts located in your country of residence.

## Limitation on Claims

Any cause of action or claim you may have arising out of or relating to these Terms of Service or the Services must be commenced within one (1) year after the cause of action accrues. Otherwise, such cause of action or claim is permanently barred, except where such limitation is prohibited by applicable local law.
